

Saurabh Chauhan

SEO Specialist | Technical SEO

Gurugram, Haryana, India

+91 8445076426 | saurabhchauhan2973@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Professional Summary

SEO Specialist with hands-on experience in **Technical SEO, On-Page SEO, Off-Page SEO, Local SEO, and eCommerce SEO** across **25 active Australian business clients** on HTML, WordPress, Shopify, and Wix. Skilled in technical audits, crawlability, indexability, Core Web Vitals, schema markup, Google Search Console, GA4, SEMrush, and PageSpeed Insights. Combines SEO expertise with a B.Tech in Computer Science and Engineering, front-end development knowledge, and currently pursuing MBA in Business Analytics & Digital Marketing.

Experience

I Market & Manage Private Limited (AAA Digital), Australia

SEO Specialist

Aug 2025 – Present

Gurugram, Haryana |

Remote

- Manage end-to-end **Technical SEO** for **25 active Australian business clients** across HTML, WordPress, Shopify, and Wix, covering technical audits, on-page optimization, indexing, website structure, and organic search performance.
- Increased indexed pages from approximately **164 to 1,190+** for a client website by resolving crawl and indexability issues, optimizing XML sitemaps and internal linking, and implementing technical SEO improvements.
- Conduct technical SEO audits covering **XML sitemaps, robots.txt, canonical tags, schema markup, crawlability, indexability, Core Web Vitals, and PageSpeed performance**.
- Build SEO-friendly HTML landing pages and customize WordPress and Shopify websites for **eCommerce SEO**, implementing semantic structure, metadata, internal linking, structured data, and technical improvements.
- Manage **Local SEO and Google Business Profile (GBP)** optimization, including local citations, business listings, and optimization across major Australian directories.
- Perform **off-page SEO and link building**, including backlink research, competitor backlink analysis, link opportunities, and citation building.
- Monitor organic search performance, keyword visibility, indexing, and technical health using **Google Search Console, GA4, SEMrush, and PageSpeed Insights**, and guide developers and teammates on implementation priorities and website optimization fixes.
